

## *Seeds Family Worship CDs*

We live a good twenty minutes from church and school, so our collection of audio books and music CDs has grown this year. Some of our favorites are from *Seeds Family Worship*. They are five different CDs with passages of scripture set to a bit cooler music than most kids' resources. I often listen to them when I am alone in the car because I really do learn scripture by listening. My favorites are *Seeds of Courage* and *The Power of Encouragement*, but they are all very good.

These CDs are available on Amazon and [www.seedsfamilyworship.net](http://www.seedsfamilyworship.net). On this website you can listen online and find more information including downloadable memory cards for each CD (Two samples of these on the board)! Lastly, and this is so fun, the newer packaging offers 2 identical CDs so you can have one for yourself and give one to a friend!☺ For more information, please contact Angie Heinrich at [4heinrich@earthlink.net](mailto:4heinrich@earthlink.net) or 451-8007.
